IMPORTANT MESSAGE

Dear NEUFORM propeller customer,

2019 was a very difficult year for NEUFORM. Due to an extreme drop in orders in the business area of contract manufacturing of carbon parts for the automotive industry, combined with very poor prospects of being able to close the gaps created in the short and medium term, we unfortunately have to inform you that the company NEUFORM COMPOSITES GMBH & CO. KG ceased operation on January 31, 2020 and will subsequently be dissolved.

With the timely decision to liquidate the company in an orderly manner and without bankruptcy, all claims will be settled in the end, and NEUFORM will not owe anything to anyone.

The "Propeller" division was the only one to experience no losses, so that all assets in this division were handed over to Breezer Aircraft GmbH & Co. KG with effect from 01.02.2020. The good business relationships with Breezer Aircraft, as well as the same attitude towards quality and reliability, have linked us for many years. Therefore, we were able to agree on the takeover very quickly and easily. We are pleased to be able to present you an economically stable trading partner who has the necessary expertise. After intensive training and handover by NEUFORM, Breezer Aircraft now continues to run the propeller business with the core of the long-standing staff without restriction.

For you as a NEUFORM propeller customer this means: It continues as usual!

As usual, new propellers, spare parts and the associated service will be available reliably. We are currently working together to ensure a smooth transition.

As in the past, the propeller blades will continue to be manufactured by the same expert staff in the production facility in Drensteinfurt and with the tried and tested quality management system. There will be no production downtime.

Final assembly, service, advice, sales and administration move to the Breezer manufacturing and administration locations in Bredstedt and Reußenköge, both also in Germany.

If you have any questions in the meantime, please contact Henning Boysen, the managing director responsible for sales at Breezer Aircraft, by email at hb@neuform-propellers.com or by phone +49 4674 9629-14. The website www.neuform-propellers.com is also available for you as usual.

Finally, we at NEUFORM, and especially myself, would like to thank you for the many years of trust that you have placed in our team, our products and me personally. We look forward to seeing you with the same trust in Breezer Aircraft in the future.

Best regards

NEUFORM COMPOSITES GMBH & CO. KG i.L.

Björn Riedesel
